

PensterDocs

For Immediate Release

## PensterDocs Launches App to Improve the Way People Manage Pet Health Care Records and Locate Pet Services

**Corona del Mar, CA —Mar. 31, 2016** —The exciting new release of the PensterDocs app is changing the way we manage our pets. This free [iOS](#) and [Android](#) app helps users organize and share important information about their pets, like vaccines, vet appointments, and records, all in one place. PensterDocs also includes a map-based pet service locator that simplifies finding the nearest vet or groomer, as well as a fun community stream that features posts and stories from pet lovers everywhere.

Key PensterDocs app features and benefits include:

- Store, access, and share pet records via email, text, or print.
- Access all pet documents offline.
- Set reminders for important appointments and vaccination due dates.
- Locate veterinarians, kennels, groomers, dog parks, rescue centers, nearby or anywhere across the globe.
- Quick dial a veterinarian or any related pet service.
- Share pet profile and notes, including allergies and favorite treats, with dog walkers, pet sitters, groomers, and more.
- Explore the community feed filled with adorable pictures; “like” and comment on posts.

Diana Lee, Founder of PensterDocs, says “This app is made *by* pet lovers, *for* pet lovers. We know your intention is to keep your pets happy and healthy. Our goal and passion is to make this as simple and fun as possible, for both pet parents and their pets.”

### About the App:

Pet parents create profiles within PensterDocs that track age, breed, gender, weight, licensing and more for each pet in their household. Vet records and notes are added by taking or importing a photograph, which is shareable through email, text, and printing. Users may also send reminders to their device calendar for upcoming shot or grooming due dates. This innovative new app is optimized for dog, cat, and bird owners and is essential for keeping, tracking, and sharing all relevant pet records without the need for data or Wi-Fi – records are always on the device as well as backed up in the cloud. Avoid the frustration and hassle of getting to a salon, training session, or boarding facility and being turned away because you forgot your dog’s documents! Share your pet’s profile with a walker, caretaker, or another member of your household to keep track of pending tasks.

**About the Company:**

[PensterDocs](#), LLC is based in Corona del Mar, California. The company's founder, Diana Lee, was inspired to create this app by her dog Penelope, who is a sassy border collie/lab mix. Her goal is to help make all pet owners' lives more organized and hassle-free when it comes to taking care of their pets. With their app, the PensterDocs team envisions a world where pet owners are less stressed and have more time to play with their furry friends.
